California Community Colleges Chancellor's Office (CCCCO)

- Hundreds of thousands of community college students are resuming their classes online this week after wide scale conversion from in-person instruction.
- Community colleges are donating approximately 200 ventilators to the state and are sending the ventilators, per Cal OES Logistics instructions, to a centralized location in Sunnyvale for quality assessment and refurbishment.
- Holding weekly webinars with college leaders to provide guidance on new emergency policies for online education and to support students. A daily newsletter with updates is distributed to the field Monday through Friday.

University of California System (UC)

- UCs have curtailed all "non-essential" operations and moved to remote instruction.
- All UC actions are focused on the medical center side of UC operations and gearing up for surge.

California State University System (CSU)

- The CSU Chancellor's Office will continue to work with Cal OES for requests to utilize CSU facilities.

Transportation and Infrastructure Task Force (ESF 1/ESF 3)

- On March 30, 2020, Secretary Kim met with the CEO of the California Trucking Association regarding efforts to keep the trucking supply chain open.
- Caltrans and CHP receiving requests from local governments to use Caltrans Park and Ride lots for mobile COVID-19 testing.

California Public Utilities Commission (CPUC)

- The CPUC is in the process of receiving and reviewing regulated entities Business Continuity Plans to ensure safe, reliable, and reasonable service continues throughout the COVID-19 outbreak.
- The CPUC Consumer Protection and Enforcement Division (CPED) continues to monitor impacts to Passenger Stage Corporations (PSC) and Vessel Common Carriers (VCC).
 - 17 PSCs have reported suspended operations. Three (3) VCCs reported suspending operations due to COVID-19. The active VCC is working with the Coast Guard on essential services. Transport Network Companies (TNCs) responses are due April 8, 2020.

California Department of Transportation (Caltrans)

- Caltrans and CHP receiving requests from local governments to use Caltrans Park and Ride lots for mobile COVID-19 testing.

Energy Commission (CEC)

- Received a request from ESF#12 FEMA RIX Regional Coordinator - Western Area Power Administration (WAPA) is working on plans to sequester key control center personnel in an effort to keep their workforce healthy and the power flowing.
 - They are looking to obtain COVID-19 test kits to have on hand in order to rapidly test any critical personnel at these sequestered locations.
- Some California generators are also considering options in case key power plant personnel must be sequestered, examining options to bring recreational vehicles on site for sleeping quarters.
- CEC initiated confidential surveys of refining companies to assess impacts of decreased demand for gasoline and jet fuel.

Coronavirus Disease 2019 (COVID-19)

Report Date:

4/1/2020

Report Time:

- As of [April 1, 2020](#), conference calls were conducted with refining companies representing [86%](#) of the state's capacity.
- CEC has commenced with daily collection of crude inputs and diesel fuel inventories from some of the California refiners with plans to have all of the refiners reporting by the end of this week.
- CalSTA has been reviewing the effect of "Stay at Home" orders, we have begun looking at traffic data on the State Highway System. The drop in average traffic on all routes for a 24- hour period in March 2020 is approaching 30% when compared to February 2020 and March 2019.
- As of March 31, 2020, CHP has received notification of two more positive COVID-19 cases affecting departmental employees. One is a non-uniform employee from the Oakland Area and the other is a non-uniform employee from the Golden Gate Communications Center. All guidelines have been followed including coordination with local County Health Departments and notification to employees.
- The TF is meeting this afternoon. Meeting discussion will focus on the California Department of Food and Agriculture's update this week – based on Cal OES analysis, there are emerging issues in the food and agriculture sector that, if left unaddressed, could lead to supply chain disruptions.
- There has been uptick in speed averages on the State Highway System, about 10 percent or more between March and February, so we have asked to our Departments to analyze the safety implications of increasing average speed (it should be noted, that while speed is increasing, lower traffic volumes may translate into fewer collisions). Going forward, we are hoping to develop some more granular, region-specific data on traffic and speed.
- The TF continues to see little to no decrease in long-haul truck traffic and in some cases a slight increase on major freight routes and during the traditional AM/PM peak periods – which emphasizes the criticality of the trucking supply chain right now.
